Gemvisionmatrix764bittorrent. Half-Life 2. Half-Life 2. gemvisionmatrix764bittorrent  
Gemvisionmatrix764bittorrent.Q: how to use Preference.setValue() in new class I am trying to create a basic fragment (using the Android Support Library) to show a text and a preference value. Here I am using the same layout as in Android Studio. My problem is that I am unable to use the method preference.setValue(). Here is my code: public class Fragment1 extends PreferenceFragmentCompat { @Override public void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState); // load the preferences from an XML resource addPreferencesFromResource(R.xml.preferences); SharedPreferences sharedPreferences = PreferenceManager.getDefaultSharedPreferences(getActivity()); Editor editor = sharedPreferences.edit(); editor.putString("editText", "exampleText"); editor.commit(); findPreference("preference\_id").setOnPreferenceClickListener(new Preference.OnPreferenceClickListener() { public boolean onPreferenceClick(Preference preference) { // preference.getValue() returns null here SharedPreferences sharedPreferences = PreferenceManager.getDefaultSharedPreferences(getActivity()); SharedPreferences.Editor editor = sharedPreferences.edit(); editor.putString("editText", "exampleText2"); editor.commit(); return false;
